SEN Information Report 2018

Introduction

This SEN Information Report details provision for students with Special Educational Needs (SEN). It should be read in conjunction with the school's SEN Policy.

Holly Lodge is committed to providing an appropriate and high quality education to all our students. We believe that all students, including those identified as having special educational needs, have a common entitlement to a broad and balanced academic, vocational and social curriculum, which is accessible to them and enables them to be fully included in all aspects of school life. In accordance with our ethos, every student will be welcomed, respected, supported and valued, to develop into a well-balanced person, confident in their own abilities and able to take full advantage of the opportunities which arise in the future.

Holly Lodge as a learning community is committed to ensuring success for all. This means that in all work with students we will aim to ensure that they:

- Achieve their potential and enjoy their learning;
- Achieve recognition for their hard work, participation and experiences;
- Achieve the highest levels of success in all courses
- Have high aspirations for their chosen careers and for progress beyond the school on to training, education or employment
- Can make a positive contribution to the school, the community and the wider world.

Holly Lodge will value all students equally. School staff will strive to eliminate prejudice and discrimination and to develop an environment where all students can flourish and feel safe.

The school will engender a sense of community and belonging, and offer new opportunities to students who may have experienced previous difficulties. Holly Lodge will work collaboratively with Inclusion Support and other outside agencies to offer the highest levels of support, challenge and educational provision for every student.

Holly Lodge believes that educational inclusion is about equal opportunities for all students, whatever their age, gender, ethnicity, difficulty, disability, attainment levels and background. The school will pay particular attention to the provision for and the achievement of different groups of students including;

- Girls and boys; (RAISE online cohort)
- Minority ethnic and faith groups, travellers, asylum seekers and refugees; (RAISE online cohort)
- Students whose first language is not English / need support to learn English as an additional language (EAL); (RAISE online cohort)
- Students with SEN; (RAISE online cohort)
- Students who are identified as having a disability;
- Students in receipt of Free School Meals; (RAISE online cohort)
- Those who are gifted and talented;
- Those who are looked after by the local authority; (RAISE online cohort)
- Others such as those who are sick; those who are young carers; those who are in families under stress; pregnant school girls and teenage parents; and
- Any student who are at risk of disaffection and exclusion.
- Any student who is underachieving

This report describes the way that Holly Lodge will meet the needs of students who experience barriers to their learning and the steps it will take to remove those, as well as those students who are regarded as highly talented.

The school recognises that students learn at different rates and that there are many factors affecting achievement, including ability, emotional state, age and maturity. It is likely that all students will require help, support and challenge at times throughout their time at school.

Assessment, Planning and Review

How can I find out about how well my child is doing?

On-going monitoring takes place by students’ teachers to identify students who are not making progress or who have behaviour needs which are affecting their ability to engage in learning activities.

After discussions with key staff and parents, additional support will be put into place to provide enhanced resources and/or targeted small group and/or individual support to help overcome any difficulties. The views of the student or young person about their support will be given consideration at this stage.

This additional support is documented in an individual provision map or student profiles. In consultation with the SENCO and parents, short term targets are agreed which prioritise key areas of learning or behaviour to address and by which progress can be measured. Where external agencies are involved, their advice and recommendations are included in these support programmes. Actions agreed take into account each student’s strengths as well as their difficulties.

In some cases teaching assistant support may be allocated. This support is deployed to ensure your child can engage in lessons and wider school activities and to facilitate independent learning to support transition to adulthood.

Formal review meetings are held as required. Parents, relevant external agencies and when appropriate, students are invited to this review and their contribution is valued. The impact of support offered is considered along with the progress towards targets set. Support arrangements will be updated and revised accordingly. If not involved already, this might include referral to external agencies. The outcomes of these meetings will be formally recorded.

If your child is continuing to have significant difficulties, further external expertise may be requested. Further details about this process will be explained in the LA Local Offer. For further guidance please access <http://www.sandwell.gov.uk/send>

Tests and Examinations: Access Arrangements

For some students additional arrangements and adjustments can be made to enable them to fully access a range of tests. This might include additional time, rest breaks or the use of a scribe or word processor. The SENCO will inform you about eligibility and applications for these arrangements.

Curriculum and Teaching Methods (including groupings and interventions)

How will teaching be adapted to meet the needs of my child?

Teachers are skilled at adapting teaching to meet the diverse range of needs in each class, at Holly Lodge. Differentiation is approached in a range of ways to support access and ensure that all students can experience success and challenge in their learning.

Grouping arrangements are organised flexibly with opportunities for both ability and mixed setting to maximise learning opportunities for all.

Additional adults are used flexibly to help groups and individual students with a long term goal of developing independent learning skills. Monitoring takes place to avoid students becoming over reliant and dependent on this adult support.
